Profile

Front-End Developer with 4 years of experience, working on web development with React and Next.js and mobile applications with React Native. I have experience in API integration, scalable componentization, and collaboration with cross-functional teams in Agile/Scrum environments, supporting both internal teams and agency clients. I enjoy being close to interface decisions, working side by side with the design team to turn prototypes into consistent, maintainable products.

Experience

MID-LEVEL FRONT-END DEVELOPER | HEADERS TECNOLOGIA & INOVAÇÃO | AUGUST 2025 – PRESENT

- Focus on web development with React and TypeScript, handling maintenance and new feature development for fixed client projects.
- Responsible for ensuring technical quality and stability of production products, balancing new deliveries with the health of the existing codebase.

MID-LEVEL FRONT-END & MOBILE DEVELOPER | UX AGENCY | SEPTEMBER 2024 – AUGUST 2025

- Worked on advanced front-end projects spanning web development with React, TypeScript, and Next.js, and mobile development with React Native, responsible for advancing and delivering robust applications.
- Collaborated with outsourced design and back-end teams, aligning technical and product requirements across project fronts.
- Participated in an established Scrum framework (planning, reviews, refinements), maintaining delivery predictability.

JUNIOR FRONT-END DEVELOPER | ASTROTECH SOFTWARE HOUSE | AUGUST 2023 – SEPTEMBER 2024

- Worked on-site on front-end projects with React, TypeScript, and Next.js, contributing to component architecture decisions and the evolution of scalable, maintainable solutions.
- Actively participated in Scrum ceremonies (planning, reviews, and refinements) alongside the development and product team.
- Integrated applications with REST APIs and collaborated with the QA team on test coverage, writing unit tests and contributing to some end-to-end tests.

JUNIOR FRONT-END DEVELOPER | VARSEL AGENCY | OCTOBER 2021 – AUGUST 2023

- Worked as a freelancer at an agency with a diverse project portfolio, moving across web, mobile, and back-end support work.
- Developed web interfaces and mobile applications, supported the back-end team with Node.js-based APIs, and contributed to UI conception, taking part in visual and usability decisions alongside designers.
